What is the friendship? Friendship is not only the number of people who you communicate with every day but it's a deep feeling of support and understanding. You can't make friends in one day. Friendship comes with the years you have spent together.

I think that nobody can have a lot of friends. People can have a lot of classmates, colleagues or acquaintances but not friends. As for me I just have two people in my life that I can call real close friends. Their names are Kate and Ann and they are of the same age as me. All of us really have a lot in common. We like the same music, the same clothes and we are even in love with the same boys.

The weather in England is very changeable. A fine morning can change into a wet afternoon and evening. And a nasty morning can change to a fine afternoon. That is why it is natural for the English to use the comparison «as changeable as the weather» of a person who often changes his mood or opinion about something. Other countries have a climate, in England we have weather. This statement is often made by the English to describe meteorological conditions of their country.

The English also say that they have three variants of weather: when it rains in the morning, when it rains in the afternoon or when it rains all day long. The weather is the favorite conversational topic in England. When two Englishmen meet, their first words will be «How do you do?» or «How are you?». And after the reply «Very well, thank you; how are you?» the next remark is almost certain to be about the weather.

1. What is the weather in England?
2. What comparison do the English use?
3. How many variants of weather do The English have?

Usually I get up at 7 o'clock on week-days. I do my bed and open the window. Sometimes I do my morning exercises, but not always. Then I go to the bathroom. There I wash myself and clean my teeth. Sometimes I take a shower. After that I go back to my bedroom, dress myself and brush my hair. In five minutes I am ready enough for breakfast. I always have a cup of tea or coffee and a sandwich. After breakfast I take my bag, put on my coat and go to the college. I live not far from my college and it takes me only ten minutes to walk there. I am never late for the first lesson, because I come to the college a few minutes before the bell. I leave my coat in the cloakroom and go to the classroom.

The opinions about living in the city and country are different. There are advantages and disadvantages in both, so you have to think properly before choosing where to live. As for me, I prefer living in the country, because it is more comfortable, soothing and the place of living is slower, than in the city. The air is clean and the neighbours are very friendly, and being close to nature is good for health. In the mornings you can enjoy the twittering of birds, the smells of flowers and the breathtaking sight of the rising sun. Suburban dwellers are relaxed and have a more optimistic attitude to life and good relationships with other people. Living in a city can be very convenient. There are a lot of opportunities of education, career and social life. If you live in a big city, you have many education options to choose from. You can graduate from the most renowned and reputed universities or educational institutions, find a well-paid job and have more opportunities for personal development.

It's difficult to overestimate the role of science and technology in our life. Scientists investigate the laws of the universe, discover the secrets of nature, and apply their knowledge in practice improving the life of people. Let's compare our life nowadays with the life of people at the beginning of the 20th century. It has changed greatly. I mean refrigerators, TV sets, computers, microwave ovens, radio telephones, what not.

They would seem miracles to them that made our life easy, comfortable and pleasant. On the other hand, the great inventions of the beginning of the 20th century, I mean radio, airplanes, combustion and jet engines, have become usual things and we can't imagine our life without them. A century is a long period for scientific and technological progress, as it's rather rapid.

1. What do the scientists investigate?
2. Which way did the scientists improve the life of people?
3. How has our life changed in 20th century?

When a person finishes school or university, they start their career. It's not easy to choose the right profession. It might also be hard to find a good job with a high salary.
I always believed that you should choose the profession which is interesting to you. It is impossible to achieve success in something that you don't like. If you have to do something that is boring or makes you unhappy day after day, your life becomes miserable. I think that one of the reasons why a lot of people are poor and depressed is because they work only for money. Even if it is good money, but the job is very hard, eventually you would start to hate your job.
It's not important what you do, but it's a lot more important if you get joy and energy from what you do. You might be a businessman, a builder, a carpenter, an artist, a sales person.

I just want to talk about how my friends and I spend our free time. My best friends are Tom and David. They are in the same class as me. Teenagers often complain they're bored and have nothing to do. I can't understand them. I'm never bored. If the weather is nice we go for a walk or we ride our bikes. All of us love rollerblading. We often play football, basketball or frisbee in the park and when it is rainy we go to the sports centre. Here we usually play table tennis or go swimming. At home I usually listen to music or read magazines and books. Of course as other teenagers I often go on the Internet or play computer games – but not always! It's a pity that a lot of teenagers live their lives on several public sites like Facebook or Twitter! They had better make real friends! In the evenings I sometimes watch TV. I often invite my friends over for dinner or a cup of tea and we play chess or cards. At the weekend we go hiking, fishing or sometimes we go to the cinema. We like comedies.
